EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 7, line 3, before "output values", delete ~~the~~.

Claim 9, line 10, replace "the execution of the refresh operation" with ~~execution of a refresh operation~~.

2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest the following limitations recited in independent claims 1 and 8.

a first counter that counts the number of times the refresh timing signal has been generated; and a second counter that counts the number of times the refresh execution signal has been generated , and wherein the refresh request signal generator generates the refresh request signal if a difference between the number of times the refresh timing signal has been generated and the number of times the refresh execution signal has been generated is one or more, and the refresh execution signal generator is capable of generating tow or more of the refresh execution signals within one cycle of the refresh timing signal if the difference is two or more.

wherein the pulse signal supply section comprises an output section that outputs a predetermined value when power-on processing for the semiconductor memory device is executed; and a pulse signal counter that counts the number of times the pulse signal has been generated, and wherein the pulse signal supply section continuously generates the pulse signals when the power-on processing is executed until an output value from the output section matches an output value from the pulse signal counter.

Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
